FOR IMMEDIATE RELEASE

New Voting Machines

WOODBINE, Ga. – January 13, 2020 – The Camden County Board of Elections & Registration (BoER) is working with the Georgia Secretary of State Elections Division to inform voters about the new voting machines. This is the first state-wide voting machine update since 2002.

New Touchscreen Display and Printer

The Georgia General Assembly approved the purchase of a new, statewide voting system in order to replace aging, paperless election equipment. The new system offers Camden County voters more modern, up-to date technology with important security and transparency features. The new system will also produce a paper ballot to allow for verification and auditing of election results. The Elections Division has created a new website, <https://securevotega.com>, to share information and answer questions about the new machines. A video is also available on the Board of Elections & Registration website at: www.camdencountyga.gov/vote.

Each new ballot marking device consists of a touchscreen display and a printer. Due to the size of the equipment, each voting station needs at least four square feet of space. State of Georgia mandates require one voting station set-up per every 250 registered voters in a precinct. Additionally, there is a large ballot box and scanner combination unit that may hold up to 3,500
