**FOR IMMEDIATE RELEASE**

## **Camden County Emergency Management Agency Releases 2017 Hurricane Guide**

**WOODBINE, GEORGIA – June 7, 2017—** Camden County’s Emergency Management Agency (EMA) has released its 2017 Hurricane Guide. The online guide, available on Camden County’s website at [camdencountyga.gov](http://camdencountyga.gov), has information to help local residents prepare for hurricane season.

Included in the guide is information about the EMA, the 2017 Hurricane Forecast, preparing for hurricanes, CodeRED weather warnings, and Georgia evacuation routes. Additionally, there are links to local, state, and federal offices and agencies that can help before, during, or after a hurricane.

“After Hurricane Matthew last year, more people are concerned about hurricanes and tropical storms,” said EMA Director Mark Crews. “The Hurricane Guide has valuable information to help Camden County residents learn more about what they can do to better prepare for this year’s hurricane season.”

**About Camden County Emergency Management Agency (EMA):** The EMA is responsible for the management of all emergency preparedness program areas within the County. Using the provisions of Georgia statutes, the Agency is responsible for developing and implementing comprehensive Disaster planning, Mitigation, and Response activities within Camden County. Additionally, the Agency also develops and maintains emergency plans for all types of natural and man-made hazards, and provides the analysis and recommendations necessary to make decisions that will effectively save lives and protect property in such emergencies.
