FOR IMMEDIATE RELEASE

PUBLIC NOTICE

Unincorporated Camden County Ditch and Right-of-Way Review

WOODBINE, GEORGIA – September 4, 2018 – As a result of this year’s excessive rainfall, with over 40 inches in some parts of the county, combined with the past two hurricane events, Camden County Public Works Department has reviewed several drainage systems within the county rights-of-way. Throughout this process, multiple locations were identified with encroachments of the county right-of-way which may cause drainage impairments and consequent public health and safety concerns.

All unincorporated Camden County residents are asked to observe the minimum setbacks for accessory structures, plant life, and fences on the county right-of-way. Please consult the [Unified Development Code Section 207 for further information regarding setbacks](#) and [Section 1251 for right-of-way encroachments](#).

To correct these drainage issues within Camden County, ditching and pipe replacement operations have begun throughout the county and will continue in the following areas in no particular order:

- Deer Run Subdivision,
- Elliot’s Plantation,
- Foxwood Circle, and
- Pelican Circle.

Some ditches and driveway pipes will not be affected by the above-mentioned work. If you have any questions regarding this notice or if you feel that there may be an issue regarding your property and right-of-way setbacks, please contact the Public Works Department at 912-576-3028.
